LSPIKE 4X

The Newest Member of the L-SPIKE® Family

SPIKE® Missile System with Loitering Capability

L-SPIKE® 4X

SPIKE® Missile System with Loitering Capability

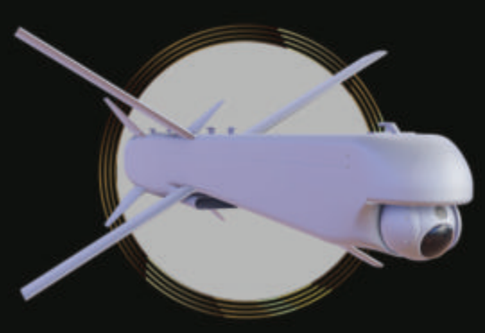

Expanding the SPIKE Legacy • **Designed as a Missile**

Introducing L-SPIKE 4X (Loitering SPIKE), the newest member of the SPIKE family – an Electro-Optical (EO), day and night, 6th generation tactical loitering SPIKE missile system. L-SPIKE 4X brings new advanced capabilities while preserving the unique advantages of the SPIKE missile system. With a quick time-to-target capability covering up to 40 kilometers in only 5 minutes, L-SPIKE 4X offers unparalleled operational performance against time-critical and moving targets. L-SPIKE 4X's low signature profile and high speed enhance survivability, while its array of powerful warheads and attack profiles make it highly lethal. With real-time automatic target location, identification and tracking capabilities, L-SPIKE 4X ensures precise targeting in dynamic battlespaces. The system maximizes interoperability by using a multi-platform launcher compatible with SPIKE NLOS, enabling simultaneous operation of the two systems. Capable of salvo attacks of up to 4 missiles, L-SPIKE 4X provides a high target engagement rate, ready to meet the evolving challenges of modern warfare. Available for order today, the intuitive and simple-to-operate L-SPIKE 4X system represents a truly disruptive innovation in defense technology, providing enhanced security and operational flexibility.

- **6th Generation** capabilities
- **Range:** up to **40 km within 5 minutes**
- **Loitering Time:** up to **30 minutes**
- **Warheads: Multi-Purpose, Tandem HEAT**
- **Round Weight: 50 kg** (Missile with Canister)
- **Multi-Platform Launcher:** for ground, rotary and naval platforms
